Student Transportation of Eastern Ontario (STEO) believes that all staff should play a role in the development of programs and practices that result in an environmentally friendly place to work, and contribute to a healthy, safe, pollution-free, sustainable environment.

It is the policy of STEO:

- to integrate environmental awareness into the work environment,
- to support on-going professional development programs for STEO employees regarding environmental issues,
- to advocate programs and practices which will demonstrate respect for the environment,
- to reduce the generation of waste material,
- to reuse products and materials,
- to encourage recycling of non-hazardous materials,
- to encourage the use of environmentally friendly products and ban the use of pesticides and herbicides, save and except in circumstances affecting staff safety and health, i.e. anaphylaxis,
- to store and dispose of hazardous materials in accordance with legislation and regulations.
