

# TRANSPORTATION UPDATES

## STAY CONNECTED

STEO is working with CDSBEO, UCDSB and local Public Health to develop a safe plan for transported students for the upcoming school year. Follow STEO on social media for transportation related updates throughout the summer.

**IMPORTANT:** To support safe and accurate planning, parents are reminded to ensure that your address and contact information are up-to-date at your children's school as soon as possible.

For families submitting Family Accommodation Requests for dual custody arrangements, please ensure that your updated forms are signed and submitted as soon as possible. Forms can be accessed at [www.steo.ca](http://www.steo.ca) under Quick Links/Transportation Forms at the bottom of the homepage.

We thank you for your patience as we navigate these uncertain times. STEO is available throughout the summer and we will continue to provide updates as we gain more clarity and direction on path forward.
