

Are you moving?

Access the

School and Transportation Eligibility
Which School do I attend AND Can I ride a
bus?

function on the STEO.CA homepage to search schools and transportation information in your area.

Reminders:

Inform your child's school of any address changes. Elementary schools are closed during the summer months. If possible, please ensure that changes are communicated before end of school year.

Your child's new busing will be set up within 3 business days, provided that the new address is within the school's transportation boundary.

Ensure that the school has your contact and new address information no later than one week before you move in order that the bus company may contact you with new busing details.
